BLOOM

GOOD SOIL,® BETTER EARTH.

Woody Blend: A Recycled Soil Conditioner Rich in Organic Matter and Nutrients

- Bloom is an all-in-one concentrated product, providing the nutrients of a fertilizer and the organic matter of compost.
- Bloom helps improve root and leaf growth, drought resistance and water holding capacity based on research from Virginia Tech and the University of Maryland.
- Bloom's Woody Blend is sustainably and locally made by DC Water biosolids, helping reduce carbon emissions and generate renewable energy.

Join the growing ranks of gardeners, landscapers, and other customers using Bloom to get their plants, crops and lawns booming today!

Woody Blend contents: aged hardwood fines, fresh Bloom

BLOOM

GOOD SOIL,® BETTER EARTH.

How to use Bloom

Bloom is easy to use. Please follow our guidelines for the best results.

- **Plant Establishment**
  Incorporate 20-30% Woody Blend to a depth of 6-12 inches of existing soil.
- **Turf Establishment**
  Incorporate 20-35% to a depth of 6-12 inches of soil.
- **Potting Soil Blending**
  Incorporate up to 35% Woody Blend (if making your own blend)
- **Topdressing-maintenance**
  Spread ¼ inch Woody Blend evenly on your lawn to improve soil quality without disturbing turf growth.
